Professional Experience

StudiWeb s.r.l. Castellana Grotte, Bari · on site

Web Developer   2021 - present

- **Development and integration of web solutions**: Analysis, design, and development of custom web applications, with a strong focus on scalability and performance. Integration of Google Analytics 4, Consent Mode V2, and Google Tag Manager for data collection on e-commerce flows, events, and custom metrics, as well as server-side tracking to continuously improve clients' business strategies.

- **Maintenance and optimization of existing systems**: Taking over and improving pre-existing projects, with targeted interventions to increase performance, debugging and fixing issues, and strategically implementing new functionalities.

- **Technological innovation and experimentation**: Implementation of modern frameworks and technologies, with a particular focus on Angular and component-based web development. Design of scalable architectures, performance optimization, and adoption of best practices to ensure structured, efficient, and easily maintainable applications.

FullStack Developer Junior 2021 - 2022

- Database management and optimization: Migration, export, and integration of complex databases to ensure efficiency, security, and stability of digital platforms.

- Strategic FullStack development of company software for several projects, implementing high-performance and responsive interfaces using CSS, HTML, PHP, and Backbone.js, with a focus on optimizing the user experience.

Data Analyst   Putignano, Bari · On site
